

Big building plot with ruin close to Carvoeiro (7.910 m²)

Lagoa, Carvoeiro

Carvoeiro:

These two plots with a total area of (4.160 + 3.750) 7.910 m², each with a ruin, offer panoramic country side views and are sold as a whole. They are located close to Carvoeiro center, about 45 minutes by car from Faro airport. They have viability to build two villas one with 250 and another one with 300 m² or a big villa with a built area of up to 550 m² including a pool on the site of the existing ruins. It would be also ideally suited to implement a rural tourism project (Turismo Rural) that, in this case, would significantly increase the building allowance.

A great opportunity to have a bespoke villa on a big plot like this close to Carvoeiro. Excellent investment!
