

New

2 bedroom townhouse in a new development in Carvoeiro

Lagoa, Carvoeiro

The Quinta do Algarvio Village, is one of Carvoeiro Clube's proudest resorts. We have the potential to create something very special that does not yet exist in the Carvoeiro property market. Very well designed, built to the highest standards and furnished in a contemporary, modern style. Due to the fact that we are not only the developers but also the operators at a later stage (after sale), we know what clients want, and know how units and infrastructure have to be designed and equipped in order to function well in the operation in terms of cost and efficiency. Our many years of experience in property resort and condominium management will be a benefit to the product and the clients investing in these properties. The Quinta do Algarvio Village, is located within the Carvoeiro Clube. It is surrounded by private villas which means the resort is not exposed to traffic and therefore very quiet. The land is very large and offers enough areas to create an attractive garden with lots of room to relax. All units benefit from the large garden that offers nice views of the surrounding areas and has a nice distant sea view mostly from the first floor. All amenities like sports (Golf, Tennis, Fitness) our Tennis Club is very close to the resort where the clients can enjoy our facilities, (please see the link: <http://www.tenniscarvoeiro.com/website/>), as well as shops, restaurants and beaches are nearby and can be easily
